EDUCATION

University of California, Berkeley **Berkeley, California**
Master of Information and Data Science (MIDS), GPA: 4.0 Dec 2026
Coursework: Machine Learning, Statistics, Data Engineering, Programming, Data Visualization, Modern AI Strategy and Applications

California Polytechnic State University, San Luis Obispo **San Luis Obispo, California**
B.S. in Business Administration, Finance Concentration; Minor in Real Property Development Jun 2025
GPA: 3.91, *Summa Cum Laude*
Coursework: Econometrics, Statistical Inference I & II, Computer Applications in Finance, Information Systems

PROFESSIONAL EXPERIENCE

DivcoWest **San Francisco, California**
Investment Intern Jun 2025 – Jul 2025

- Structured leasing, property, market, and scenario data across \$250M+ in real estate investment case studies, building pro forma inputs and comparative analyses to test occupancy, lease-up, and downside assumptions
- Built DCF and sensitivity models to evaluate IRR, equity multiple, cap rates, and return potential, translating analytical outputs into an investment recommendation presented to senior leadership

LPL Financial **San Diego, California**
Strategic Accounts Intern Jun 2024 – Aug 2024

- Built automated Power BI KPI dashboards for 64 advisory firms representing \$401B in AUM, translating relationship-manager requirements into standardized account-monitoring views and improving performance visibility
- Used Excel Power Query to clean and standardize source data, then presented dashboard findings and workflow recommendations to senior leadership to guide reporting and advisor-support priorities

Aura Group **Sydney, Australia**
Property Credit Intern Jun 2023 – Aug 2023

- Built Excel forecasting models across a \$10M property credit portfolio, converting revenue, expense, and capital-allocation data into scenario-based views supporting budgeting, portfolio planning, and credit analysis
- Resolved recurring client report inconsistencies, improving data reliability for credit and portfolio analysis

ANALYTICS PROJECTS

Mortgage Approval Analytics | *Python, DuckDB, SQL, Tableau*

- Built a reproducible Python, DuckDB, and SQL pipeline processing 3.8M raw HMDA records into a validated 2.58M-decision dataset, standardizing source fields across four states and engineering analysis-ready variables
- Automated validation of row counts, state totals, lending outcomes, and key missing values, then exported a 25-field Tableau-ready dataset and published three interactive dashboards for analysis

SQL Analytics & Data Engineering Case Studies | *Python, PostgreSQL, SQL, Tableau*

- Analyzed 1.54M retail transactions and \$98.7M in revenue with PostgreSQL, SQL, Python, and pandas, using multi-table customer, product, and time analysis to identify volume-driven store performance and build Tableau dashboards
- Built a JSON-to-PostgreSQL batch pipeline staging 97 transactions and 352 line items, mapping all 8 product IDs and passing financial/reference validation with zero exceptions; reconciled 84 exact customer matches and routed 13 for review

LEADERSHIP AND ATHLETICS

University of California, Berkeley Rugby Team | *Division I Intercollegiate Varsity Athlete* Aug 2025 – May 2026

- Maintained a 4.0 GPA alongside a 20+ hour weekly commitment as a starter on Berkeley's 2026 national championship team

California Polytechnic State University Rugby Team | *Captain and Treasurer* Aug 2021 – Jun 2025

- Led a nationally ranked Division I program with 60+ athletes and managed travel, lodging, and competition expenses

SKILLS, ACHIEVEMENTS, AND INVOLVEMENT

- Skills:** Python (Pandas, NumPy, Matplotlib), SQL (PostgreSQL), R, JSON, ELT, relational modeling, data validation
- Analytics & BI:** Tableau, Power BI, Excel Power Query, Git/GitHub, Jupyter, PowerPoint
- Achievements:** Lean Six Sigma Green Belt, 2x DI Collegiate Rugby All-American, Academic All-Conference
